12. Do you have ideas/comments for Preserve Rural Orange? Please list them here.

Responses

1. Continue the excellent communication on issues that affect the PRO community in SW Orange County. Support the wider county community when appropriate.
2. Continue opposing unnecessary and environmentally damaging development in the rural community
3. I would like to see more ACTION to address the challenges to our rural environment, political and other.

4. Great job PRO-ers! Thank you for all of your hard work on behalf of the community!

5. Just one question really. I just moved from Seattle two years ago and there we could revoke the election of officials in a recal election. Can the citizens of Orange county get up a petition for a recal election for our county commissioners? Thanks
6. Great job on both the issues and on community building.

7. We are working on similar issues in Alamance County and want to use many of your techniques to help our group. Please continue to share your ideas with us. Thank you. Great work!

8. we must include all of Orange County in Preserve "Orange County" as the name states. Power in numbers. Thank you.
9. Keep up the GREAT work! I think this organization has been very instrumental in shaping and changing opinions in the community at large. The airport retraction is an excellent example of community activism in action.

10. The organization has been represented by a small group and little information has been made available to the community. Involving more people and publicizing all meetings is the only way the organization can survive.

11. email communications have been excellent -- very informative, complete and helpful -- thanks for everything you all are doing! great way to build community; too bad it comes out of things that threaten bingham township though

12. PRO's work has been good, but too focused on the Airport Site H. The bigger threat to the community has and will continue to be the WTS. I would like the to see the group take a more aggressive stance in opposition to the WTS and any subsequent landfill. PRO needs to initiate a second legal, backing up the one OCV is contemplating.

13. PRO has done an incredible job - as a resident of the Bingham Township, I appreciate every effort PRO puts forth and especially appreciate the success realised from their rallying of the local troops. Keep up the amazing work. [I am, however, concerned about the airport authority law remaining active. My general distrust of politicians allows me to believe this sleeping cobra will strike at a time least expected.] Onward to stop the proposed WTS... Thank you.

14. Mailing a news letter is too expensive. PRO should watch not only Bingham but other threatened rural areas in the county. However, Bingham should be the focal point for most information.

15. I was very disappointed by the Art Gallery Gathering. It seemed to have no structure or focus other than selling pictures. This was an excellent opportunity to introduce PRO leaders and members of the community which was mostly wasted.

16. We live in Chatham Co., but own 7 beautiful acres on Orange Grove Road in Bingham Township. You guys have done a great job. Thanks for all your hard work!

17. Steering committee is doing a fabulous job!!!!

18. Thanks for all your hard work to date. Congratulations on the airport issue (even though it is probably not gone forever).

19. Land restrictions need to be addressed. There are many acres in families for generations and no one can build on this land because of restriction..10ac. 5ac. and 2.5ac restrictions. This prevents affordable housing from being constructed in the county..families are having to go to alamance county to build there when there is family land in orange that could be utilized, if not for numerous restrictions.

20. I regret that PRO has turned me away from the very first meeting at the fire station, to my attempting to come to a steering committee meeting TO VOLUNTEER MY TIME, to now refusing to hold open meetings where members can attend. While I wish to stay informed I cannot in good conscience serve on a board that is not transparent and open to its members as we are requesting that of UNC and others.

21. I am extremely concerning as I have lived here all my life. This whole UNC "pet project" is wrong and I will continue to fight it! I belong to C/CH Chamber, GCHBR and Antioch Baptist Church and get PRO word out to approximately 800 hearers when I broadcast what you send me. I prefer working in the community as always being sure the research and email you send are sent to as many residents as possible. KEEP UP THE GOOD WORK.....

22. My husband and I would like to see continued communication and coordination between the people involved in the leadership of PRO and Orange County Voice. Both groups are led by intelligent, articulate, skilled, and committed individuals. Both groups need to support each other's mission & coordinate shared efforts when appropriate & beneficial.

23. Is there room to include items of local interest, e.g., lost pets, personal announcements, or should this be another organization?

24. In protecting and preserving any area of Orange County, human health protection from contaminated water and airborne emission pollutants should be considered. These elements are vital to protecting the area and its citizens

25. Thanks very much for your efforts.

26. I would like there to be more work done against the animal lab, I haven't heard much talk about it. I would also like more news via email besides editorial and other media pieces. I was only able to make the first community meeting, and after that since missing the subsequent ones i felt out of the loop. Thanks for the good work.

the above 26 comments were from the mass mailing website survey; the next 3 were the PRO website where one had to go to the site and click on a button to respond to the survey

1. I am not on your email mailing list and thus cannot respond to this question.

2. I just found your website today and I am very impressed and happy that such an organization exists.

3. Where are the minutes to the 03/15 meeting? I looked over the website, but did not find a summary of the topics discussed.

these comments are from the paper/pencil copies

1. Please continue your work

2. with reference to item 9 (BT only): in favor of the limit to BT but "consider expanding areas covered by PRO (land-wise)

3. Ref. to 9. Southwest" need not be included but it should be understood that until the organization grows to a county-wide org, the focus of PRO resources should be devoted to issues of great importance to Bingham Township residents

4. Nice newsletter; re item 9 - depends on group's intention...would like it to focus all of O.C. (this made by someone from outside OC)

5. PRO is a very impressive organization-- focused on clear objectives; well organized, led by able and clear-thinking individuals, inclusive of all local citizens; an exemplar of civic engagement and democratic action

6. I really appreciate the work that has been done on behalf of the community and all the information that has been shared. I do NOT appreciate the petty bickering about power that has recently erupted. I am glad that person has removed himself.
